

*Ronald McDonald House Charities®  
of Oklahoma City*

*The Ronald McDonald House®* benefits children by providing a 'home away from home' every day of the year for families with seriously ill or injured children who come to the Oklahoma City area for specialized medical treatment. Families staying at the House besides receiving lodging, meals and many extras, are able to share their experiences with others going through similar hardships.

*The Ronald McDonald Family Room®* inside The Children's Hospital serves hundreds of families every week as they face the challenges of having a child in the hospital. The Family Room offers a home-like retreat for families where they can refresh, take care of necessary daily needs and be just steps from their children's bedside.

**HELPING CHILDREN HEAL, KEEPING FAMILIES NEAR**

Support from the entire community keeps the doors open at both the Ronald McDonald House and Ronald McDonald Family Room where all services are provided at no cost to the families. This allows the families to focus on the most important thing - helping their children get well.

The Red Shoe Gala is the primary fundraising event for RMHC®.

Net proceeds benefit children and their families staying at the Ronald McDonald House and the Ronald McDonald Family Room.
